

TOPCONSULT
AVANTI VELOCE

Top Consult

Established in 1987 in Turin, Italy, Top Consult was one of the first Italian companies to operate in the electronic management of documents and to “evangelize” the market. Today, it is one of the leaders in this sector, with over 500 private and public clients in Italy and Europe with some relevant references as Lavazza, Prada, Acqua Minerale San Benedetto, Coop Alleanza 3.0, Toyota Material Handling Italia, Bennet, Findomestic, Eni Finance. Companies that rely on Top Consult solutions, in order to improve their business management and competitiveness.

Top Consult has a deep knowledge of the regulations with a commitment that dates back to the dawn of digital legislation since 1994 and has more than 30 years of experience gained by creating hundreds of document solutions integrated with the information systems of every type of Company

More recently, the approval of the legislator in favor of dematerialisation has led to the consolidation of the Digital Document in Corporate life (from the PEC registered emails, to the Electronic Invoice, to the UBL Electronic Orders).

Companies must today comply with regulations and in a world of documents that are more and more becoming electronic, they must rely on expert and reliable partners such as Top Consult, that are capable of leading them in making the right technological choices and the organizational transformation of all processes, while always complying to all specific provisions on

Digital documents, Electronic Signatures and their mandatory digital preservation.

The core of all Top Consult solutions is **TopMedia Social NED Enterprise Document Platform**, available under license from customers or in the Cloud through a proprietary IT infrastructure, fully virtualized, which provides unlimited levels of computing power at the same time ensuring high levels of Security, Business Continuity and Disaster Recovery.

Furthermore, Top Consult provides its customers with outsourcing services for B2B and PA Electronic Invoicing, order management via NSO and compliant Dematerialization.

Top Consult features **ISO 27001** and **ISO 9001 certifications**, it is an **AGID accredited Digital Dematerialization** and **PEPPOL certified Provider** for the exchange of Digital Documents in UBL format.

The history of Document Management is the history of Top Consult

TopMedia Social NED

Designed and engineered in our Software Development Laboratory of Turin with “revolutionary” criteria, TopMedia Social NED is disrupting new concept of platform for Document Management and Corporate Collaboration, which for the first time on the market conveys the concepts and operating methods of social networks and social collaboration with electronic document management.

TopMedia Social NED is the first Italian enterprise-class document platform, powerful, scalable and highly reliable, thanks to its native Fault Tolerance and load balancing features. With an intuitive interface, that facilitates smart working and the extension of document management to managers and mobile workers. Users become collaborative in all structured and unstructured Company processes with solutions available on **PCs, Web and Mobile**, on premises and on the cloud. Finally, paper is overcome thanks to digital documents and electronic signatures, travelling this way the last mile to the digital transformation of Company processes.

TopMedia Social NED comes to the market
on premises or on the cloud, with 2 different configurations:

SUITE

Small to medium companies can access ready-to-use scenarios, still customizable for specific sectors, such as Accounting, Electronic Invoicing, Human Resources and Personnel Administration, Quality or Correspondence management.

ENTERPRISE

For medium to large accounts that need to implement articulated document and process automation projects. The platform features a powerful and scalable SDK layer, that ensures integration with ERPs and portals to link metadata to digital documents and so optimize the company IT infrastructure.

With TopMedia Social NED Content Management evolves towards Process automation. The implemented solutions satisfy the needs of customer of all sizes, public or private, belonging to different business categories, such as large-scale distribution; Fashion, Manufacturing, Tourism, Automotive, Services etc...
